Subject: PRIA Label Amendment – Addition of base disinfection claims and SARS-CoV-2 claims
Product Name: Backspin No-Rinse FCSS
EPA Registration Number: 9480-13
Application Date: October 8, 2020
Action Case Number: 00217458

Dear Mr. Marcelin:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6), you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the

EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Melanie Bolden by phone at (703) 347-0165, or via email at Bolden.Melanie@epa.gov.

Sincerely,

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

[See directions for use on the container[s] inside.]

TO SANITIZE [HARD NONPOROUS FOOD-CONTACT SURFACES]:

For Visibly Soiled Surfaces: Use a [*product name*] wipe to clean the surface to be treated. Sanitize with additional [*product name*] wipes. Wipe enough for treated area to remain visibly wet for one [1] minute [or 60 seconds]. Let air dry. No rinsing required.

For heavily soiled surfaces: Remove all food particles and soil from surfaces that are to be sanitized by thoroughly washing the surfaces with a detergent, followed by a potable water rinse before applying this [sanitizing wipe] [*product name*]. Wipe enough for treated area to remain visibly wet for one [1] minute [or 60 seconds]. Let air dry. No rinsing required.

99.999% effective in one [1] minute [or 60 seconds] in the presence of 5% organic soil against [*Escherichia coli*] [(ATCC # 11229)][,] [*Staphylococcus aureus*] [(ATCC #6538)][,] [*Shigella boydii*] [(ATCC #9207)][,] [and] [*Listeria monocytogenes*] [(ATCC #19115)].

Disinfection Directions: Use a [*product name*] wipe to clean the surface to be treated. Disinfect with additional [*product name*] wipes. Wipe enough for treated area to remain visibly wet for five [5] minutes. Let air dry. No rinsing required on food contact surfaces.

This product is an effective disinfectant according to the AOAC Germicidal Wipe Test method on hard, nonporous, inanimate surfaces against: [*Staphylococcus aureus*] [ATCC 6538] [,] [and] [*Pseudomonas aeruginosa*] [ATCC 15442] [in five [(5)] minutes].
